OUTSOURCING CAPABILITIES

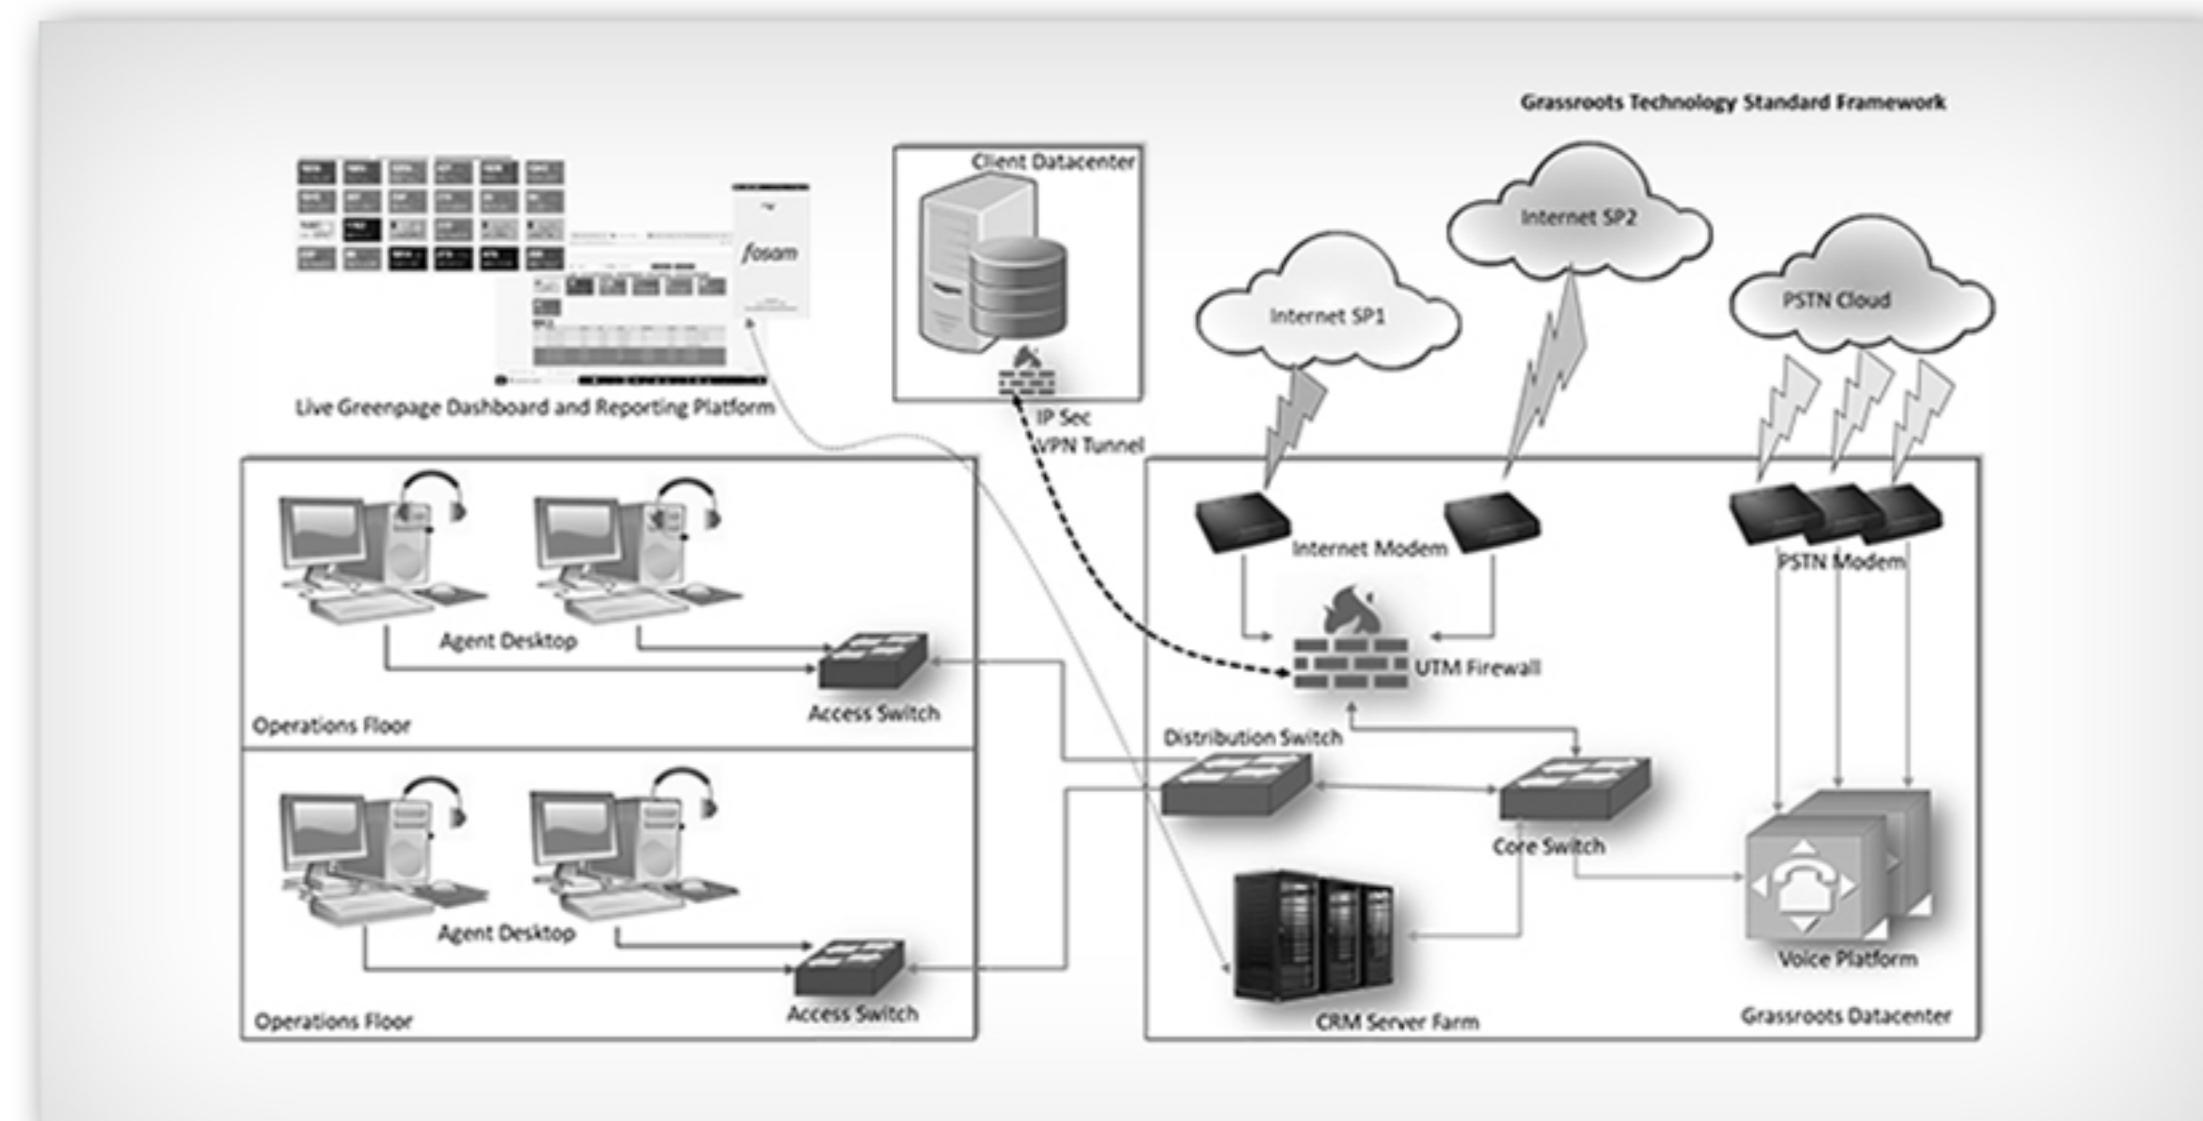

Complete Life Cycle Management

TECHNOLOGY CAPABILITIES

DATA, ERP & CRM PLATFORM

Availability of processed data is critical for measuring the success of the business. At Grassroots, we deploy CRM specific to the process requirement for capturing, processing, routing information to manage various stages of the process life cycle. These CRM platforms are customized to clients business needs and extended to provide realtime performance details to our clients. We provide Email and Chat Solutions to manage non-voice customer interactions. We extend the functionality of CRM from Desktops to Smartphones; we specialize on Android Apps to manage various customer interfacing processes.

VOICE PLATFORM

Grassroots deploys Asterisk - an open source telephony platform for delivering voice services. We deploy IP PBX which are integrated with E1/PRI, SIP Trunks, Predictive Dialer, Automated Call Distribution system (ACD). Interactive Voice Response (IVR) system. Voice Call Recordings for managing customer voice interactions. The Platform provides various Auxiliary Services such as IVR Broadcasting, Missed Call services integrated with automated dialer system for reduced turn around time performance. The Voice platforms are integrated with databases and customised CRM for Information availability and effective transaction management.

DIGITAL SOLUTIONS

ROBOTIC PROCESS AUTOMATION (RPA)

Grassroots offers clients the benefits of reduced costs and increased productivity by automating redundant tasks in their enterprises through the application of Robotic Process Automation and Artificial Intelligence (AI). Our team has expertise in automating tasks like processing transactions, data manipulations triggering responses and communicating with other digital systems. Our subject matter experts are certified in the implementation, maintenance and operational support of

SMART CONNECTED SOLUTIONS

Grassroots' architects and designers enable our clients to increase productivity and improve the quality of their deliverables by connecting their devices to the digital world and implementing IoT based solutions. These solutions are applicable across verticals and scales, be it Smart Factories, Smart Homes or Smart Cities.

BLOCKCHAIN SOLUTIONS

Grassroots has considerable expertise in Blockchain and its functions like Shared Ledger, Distributed Ledger & Smart Contracts. Our solutions are designed to enable our clients to achieve the adoption, integration & successfully realization of Blockchain networks. Our fluency in Digital Services that are compatible with Blockchain and help amplify its functionality comes as a value addition to our clients.

DATA SOLUTIONS

Grassroots Customer Analytics gives our clients a comprehensive look into customer behaviour, needs and pain points, paving the way to boost bottom line performance. Our services include implementation of Customer 360. Campaign Analytics, Churn Management as well as Segmentation and Targeting. Our Operations Analytics enables clients to perform an in-depth analysis of Enterprise Data allowing them to make informed decisions that in turn increases efficiency across the organization and facilitating the discovery of hidden opportunities.
